Section 2

Conducting a Tournament

Running a Tournament

All invitational and region tournaments must be conducted in the same format as the state tournament.

All tournaments must be conducted the same to create consistency across the state. The following outlines the required setup. Safety and liability must be considered for each event site.

- There should be three (3) mat areas provided for warm-ups.
- Area one is for stretches and jumps only. No tumbling will be allowed in area one. This area does not have to contain five full mats.
- Area two is for tumbling. This area does not have to contain five full mats but should be safe and provide space for both standing and running tumbling.
- Area three is for stunts and pyramids. Tumbling will be permitted only if time allows. This space **should** contain a full set of competition mats.
- Only **two** coaches can go through rotation of warm-ups and to the competition floor. Credentials should be checked, and coaches cleared for liability reasons.
- All alternates and additional coaches should remain in the designated team or spectator seating.
- The music person should go directly to the music area when the team enters warm-ups.
- Coaches should be prepared and organized for warm-ups and the team should practice the procedures at each invitational in preparation for region, sectionals, and state events.

GHSA Constitution and By-Laws

See page 53 for further rules governing sportsmanship and the NFHS Spirit Rules Book

All cheerleading competitions must be conducted according to the rules of the National Federation Spirit Rules Book and the GHSA Competitive Cheerleading Manual. The GHSA cheerleading manuals are posted on the GHSA website. The NFHS Spirit Rules Book may be purchased from the GHSA office.

Tournament Host

1. **All** hosts must be familiar with the competition guide, review the guide with the scorekeepers, the music person, and timers prior to the event.
 2. Appointed by the school and is a member of the host school's personnel. This should **not** be a parent/guardian, or a parent/guardian involved with/in the booster club.
 3. Is familiar with cheerleading and tournament procedures; has read and reviewed the Georgia High School Association Competition Cheerleading Guide; and all GHSA rules governing competitions.
 4. Is to seek sanctioning from the GHSA by the designated deadline to host the tournament. All forms and contracts should be submitted at the **same** time.
- All tournament hosts should complete the PowerPoint located on [GHSA.net](https://ghsa.net).
 - Hosts must verify they have ample warm up areas complete with mats and adequate space. (*See Tournament Setup*)
 - Hosts should adhere to the start time indicated on the contract, if possible. Many coaches choose competitions because of the time listed on the contract.
 - Coaches will need to inform their team and parents/guardians of their competition schedules, so student athletes know when to schedule the SAT/ACT.
 - Teams may be charged an entry fee as determined by the host school.
 - It is highly recommended that all sanctioned events have a minimum of **twelve (12)** high school teams, **excluding** middle school. However, the final decision to host a competition will be determined by the school.
 - The total number of teams should be limited to **40 high school** teams, **excluding** middle school, to provide adequate warm-up and performance time. If more than 40 high school teams, **not including** middle school, are in attendance, then the tournament host should work closely with the Booking Agent to determine if a second panel of officials is needed.
 - Middle schools may not compete at GHSA sanctioned events. If a middle school tournament is hosted it should be held prior to or after the GHSA sanctioned event and a separate awards ceremony must be held.
 - Middle school and high school events will be considered two separate events.
 - Either the arena must be **cleared** of all spectators during the event or the host school must determine how to account for attendance.
 - All sales must be considered when determining the percentage that will be paid to the GHSA for the gate.

Tournament Host Responsibilities

The Tournament Host is responsible for running the competition and must address any issues that may occur with a squad including those with spectators as well as involve security when needed.

The GHSA State office will assign the official's association for your competition. Contact the Cheerleading Director at the GHSA State office if an association has not been assigned by July 15th.

- Provide a meeting place for officials **only** when they arrive. It will serve as a meeting room for before, during a break, and after they are judging. It should be away from all coaches, athletes, and spectators.

Middle School Officials and Judging

- Middle School competitions do not have to use GHSA officials.
- A host can use GHSA officials. If so, the Booking Agent will assign them, and the officials will abide by all GHSA Guidelines, NFHS Safety Rules, and must use the current GHSA scoring rubric and scoresheets.
- When there are more than 16 competitors on the middle school team, the officials will adjust the skills scoring section guide to encompass all team members and their expectations of numbers of skills to be executed.

The Tournament Host should:

- Obtain information concerning pay directly from the Booking Agent and determine how and when officials will be paid.
- Officials are paid for a **minimum of 12** High School Teams.
- They are paid **\$10** per team up to 12 teams; **\$8** per team for more than 12 teams.
- Transportation is paid per the GHSA set fee. [The 2019 rate is \\$.58 per mile.](#)

- Booking Agents will negotiate fees to judge middle schools and they may negotiate transportation based upon the association rules.
- Inform officials as to when they will be paid and serve as a liaison between the officials and the school and/or school system. Invitationals must follow GHSA rules/guidelines concerning pay for sanctioned events.

The Tournament Host should arrange for:

- All tournament staff to include scorekeepers, timers, a sound person, gate and ticket personnel, announcer, security, clean-up, concessions, etc. In general, organize the staff to assist with team rotation and running the tournament. All tournament staff should be trained by the tournament host.

- Coordinate the running of the sheets from the officials table to the scoring table. Should any issues arise remain accessible to the officials and staff.

2	Make a copy of all scoresheets to be maintained at the school.
3	Make a copy of the Master Score Sheet for each school and the Head Judge. <ul style="list-style-type: none">• The Head Judge may ask for a copy of the Safety Infraction sheet for each school.

MATS

The Tournament Host is responsible for placing the **competition** mats according to the GHSA directions. The Head Judge will check placement when they arrive and may ask that mats to be changed to meet requirements. Competition will not begin and may be halted until the mats are correctly placed.

- Mats should be 42' X 42'.
- Mats must be a minimum of 1- and 3/8-inches' thickness.
- Mats cannot be spring floors.
- Mats must be Blue at all GHSA sanctioned events. Strips to mark floor in sections should be blue.
- The competition mat is the competition floor. White tape may be used to mark the center of the mat and around the outside of the mat. This would be a safety precaution for the cheerleader to help them to determine where they are on the mat when tumbling.
- The entire mat is considered the competition floor.
- Out-of-bounds will be considered stepping off, tumbling off, stunting off, dancing off, jumping off the mat, or performing off the mat.
- In the case of an injury or accident, mats must be appropriately cleaned of any bodily fluids before the competition can proceed.

Mats must be placed according to the GHSA rules and failure to do so can result in a penalty for the host school. Please follow the steps for placing the mats and see the drawing.

Step	Action
1	Lay the length of the mats parallel to the officials' table. <ul style="list-style-type: none"> • Mat placement: 7 mats wide, 7 mats long.
2	Locate the center by measuring front-to-back and side-to-side.
3	Mark the center with white tape forming an "X".
4	Measure three feet either side of it and this is where the first blue strips will be placed from the back to the front, perpendicular to the officials' table.
5	From there measure 6' on either side of that line and continue to do so. There will be six lines of blue tape from back to front.
6	White tape may then be placed around the border of the mat to define the ends/edges of the mat. <ul style="list-style-type: none"> • This does not define the boundary and is a safety precaution only.

Back of mat (Team entry should occur at back of the mat if possible.)

GHSA Competition Cheerleading Guide

- Be consistent and fair in all scoring. Evaluate teams fairly using the rubric.
- Do not compare teams. Only score the team based on the rubric and the performance that day!
- Do not consider last week's performance, ratings on social media, or what you have heard. Evaluate a routine based on the performance that day.
- Conversations at the table must be kept to a minimum. The Head Judge may ask that you review your scores if you appear to be out of line with her/his performance notes based upon the rubric.
- Do not try to persuade or convince another judge to score or to call a rule.
- All officials will score according to the rubric. Do not come up with your own formulas to scoring. Stay in the range defined on the rubric.
- Keep excellent notes! Since issues may not come up for several weeks, hold onto your notes till the end of the season. You may be asked to provide your notes so that discussions can be held with the Booking Agents, State Coordinator, and a coach.
- Make sure your scores can be read!
- Score in blue or black ink.
- Sign your score sheet and make sure your whole name can be read!
- If you make a mistake, **initial it**, strike through the score you wish to change **once** and write in the new score.
- When a team does not perform a skill/element of the scoresheet, a score of zero may be given.
- The Head Judge will ask the panel involved to check their notes. The panel and the Head Judge must agree that the skill was not included in the routine.

They will consider if the order of appearance needs to be altered. They must also consider the time element and how long teams have waited. Time should be allowed for all teams in rotation to participate in their allotted rotational and warm-up activities. If too much time passes between the time of the injury and the next team in rotation, then all remaining teams should return to the warm-up area and rotate back through. This is for safety reasons.

- To call a major violation, two of the three officials must be in total agreement that the violation occurred.

Safety - All Officials

- All out-of-bounds, uniform violation, loss of shoes/hair devices, jewelry violation, etc. can be called by any one judge. Warnings are not given for these types of violations. They are called. The Head Judge should be informed by any judge on the panel who identifies a possible violation.

Timer and Timing Guidelines

The following outlines when the timing of a routine begins and ends.

- The timing of the routine will begin with the first movement, first word, or first musical sound in the routine.
- Teams may not come onto the floor chanting or cheering in an organized fashion. They may enter the floor and leave the floor showing spirit.
- The timing of the routine ends with the last motion or word of the routine.
- If a routine ends with a stunt or pyramid, the timing will end with the highest point of the stunt or pyramid.
- The length of the routine shall be **two minutes and thirty seconds (2:30)**; however, there is no limit of how much of that can be music. Music may be a part of the entire routine but should not exceed the two minutes and thirty seconds.
- Principals and/or Athletic Directors must review the music to be used for the school's routine. Music cannot contain profanity, suggestive and inappropriate language.
- Music in poor taste will result in a **sportsmanship deduction** of **ten** points.
- The music (CD) should be furnished by the school and labeled with the school name. The coach should maintain **two** copies. Both copies should be with the coach in the competition area.
- All music should be of professional quality. It is suggested that all music be recorded on CD-R discs. The use of paper labels is not recommended. A soft sharpie marker should be used to write the name of the school on the disc.
- Competitions cannot be responsible for music played off an iPad and/or phone. There are issues with start times and phones ringing in the middle of the performance. Should these occur, they will be determined to be **delay of meet deductions** and the team will remain on the floor to begin where they were in the routine. The team will not be allowed to start over.
- The timer will work with the judging panel and time the routine following GHSA procedures in timing.
- The timer will meet with the Tournament Host and the Head Judge to review instructions.
- Prior to the beginning of the competition the timer will check all stop watchers/clocks to make sure they are operational.
- The timer should sit by the Safety Judge and help to maintain the Safety Infraction Sheet by assisting in the recording of the time a violation occurs.
- The timer will verify the exact time that a routine stops and verify start times with the officials when a routine has been stopped for any reason.
- The timer may confer with the sound technician concerning the time a routine was stopped or an injury occurred if there are any concerns with the clock. If the sound technician has no way to monitor time, then the Head Judge and the Safety Judge will determine the starting point for judging of the remainder of the routine.
- The timer will ensure the routine time is recorded on the Safety Infraction Sheet.
- After a reasonable time and if a team has not reported to the competition floor, the rotation will continue, and the team will be eliminated from competition.
- The Tournament Host is responsible for communicating any issues which may be occurring in warm-ups to help prevent the elimination of a team.

GHSA Competition Cheerleading Guide

If needed, when a mechanical failure occurs during the music portion of the routine, the Head Judge will determine when the error occurred, the time it occurred, at what point the routine/music stopped, and when the scoring stopped.

- The routine should continue at this point with no altering of the rotation.
- The Head Judge and Timer will then determine a signal to let all officials know that they are to begin wherein their scoring will resume.
- The Head Judge will provide instructions to the panel.

Good judgement should be used when calling overtime violations. If a team is five seconds or less over the time limit, consideration should be given to when the clock was stopped, and the Head Judge may select not to impose a penalty.

- Timing infractions occur for overtime of the competition routine or delay of meet.
- **Overtime of competition routine:** For each 15-seconds, or portion thereof, a **five (5) point deduction** is assessed.
- **Delay of Meet:** There will be a **five (5) point deduction** for delay of meet.
- There will be a **five (5) point delay of meet deduction** if a team fails to line up at the mat when the announcer calls the name of the team.
- A team will have thirty (30) seconds to line up at the mat. Teams must be in position to begin the rotation for competition and ready to perform when their name is called.
- Teams must have music ready to begin the routine. It should be cued prior to coming to the floor.
- A team has thirty (30) seconds to begin once the announcer says, "*You may begin.*". "*You may begin.*" must be stated upon the signal of the Head Judge.

GHSA Competition Cheerleading Guide

- The tournament host should have a list of emergency telephone numbers such as paramedics, hospitals, doctors available in the area. An emergency plan should be in place and all tournament personnel aware of the plan and procedures.
- When an emergency or injury occurs the host and officials should stop the competition until the injured person can be removed from the warm-up mat or the competition floor.
- The same procedures that are followed for a mechanical (music) failure or other routine stopping event will be followed in performing, timing, and scoring of the routine.
- Correct procedures should be followed in the handling of the injury and the resuming of the competition.
- An injury can result in a change in the order of appearance. All teams must compete within their division.
- Teams must be allowed to warm-up and the rotation should be adjusted so that teams' warm-up prior to competing on the floor. The Host and Head Judge will determine how long teams had to wait and how to resume. If an extended amount of time was taken, then the teams will be backed up and rotate through the warm-ups again.
- The coach must determine if the team will proceed, withdraw, or use a substitute. The coach must notify the Tournament Host and the Head Judge of their decision.
- After an injury has occurred, the tournament host will consult with the Head Judge to determine the order of rotation and when the team with the injury will return. Should the team with the injury select to compete again the Head Judge will determine the start time for judging the routine and follow timing rules. *See the Timer Section of the manual.*
- An athlete who exhibits signs, symptoms, or behaviors consistent with a **concussion** (examples - such as a loss of consciousness, headaches, dizziness, confusion, or balance problems) shall immediately be removed from the contest and shall not return to play until cleared by the appropriate health-care professional. - Severe injuries of any kind are considered extremely serious and a team member who has experienced a serious injury should **not** return to the floor or compete. The appropriate medical action should be taken, and the emergency plan put into place. A substitute may be sent in for the injured team member. *Refer to NFHS Spirit Rules: 2-1-18*
- A team member who has a minor injury should not be allowed to return without the release of the medical personnel who are on site.
- Team members who are bleeding, have an open wound, or have excessive amounts of blood, may not participate in any event until the appropriate treatment is administered and the uniform and/or body has been cleaned. *Refer to NFHS Spirit Rule: 2-1-17*

Scoring and Deductions

Scorers and Scorekeeping Guidelines

The Scorers will meet with the Head Judge prior to the competition to review procedures and guidelines for scoring.

- A competition may select to score manually or computerized.
- The competition must use the program provided by GHSA. You may request the program from GHSA. Competitions cannot create their own programs.
- All scorekeepers using the computer program must be trained in advance and not the day of the competition.
- Teams competing, and the order of competition should be entered into the program prior to the actual competition.
- Competitions must provide computers and a back-up system should any issues arise.
- Directions must be followed.

Keys to Computerized Scoring

Step	Action
1	Macros must be enabled to run the program properly. You must Enable Editing and Enable Content .
2	The Excel file is a Read Only file. The user will have to Save As a new file name. It is recommended that you open the Read Only file and immediately Save As the competition name <u>plus</u> the classification. <ul style="list-style-type: none"> • Naming examples: South GA Classic – A Private; South GA Classic – A Public; South GA Classic – AA; South GA Classic – AAAA
3	Important: Save after entering each team's scores.
4	Recommended: Only have one file/division open at a time. <ul style="list-style-type: none"> • If you are running a competition and alternating between divisions – it would be wise to have multiple computers. • Example: Your competition order is AA - Team #1, AAA - Team #1, AAAA - Team #1, AA - Team #2, AAA - Team #2, AAAA - Team #2. You would need 6 computers. There would be 3 main computers each connected to a printer for each division and one back up for redundancy.
5	Suggestion: Remove the Formula Bar to minimize mistakes. You can do this by selecting the View tab on the top menu bar in excel.
6	Excel will <u>not</u> calculate unless you advance to the next cell by pressing enter . <ul style="list-style-type: none"> • If you select a cell with your cursor to edit a score, you must press enter to advance to the next cell. This will allow Excel to calculate the adjusted score.
7	Deductions: You do not have to enter a (-) negative sign before the number. <ul style="list-style-type: none"> • Example: A team has 5 points taken off for a fall – the user would just enter a 5 in Deduction total for that team.
8	Tie Breakers: The program automatically breaks the ties. (<i>See Breaking Ties</i>).

GHSA Competition Cheerleading Guide

Deductions

The Competitive Cheerleading Safety Infraction Sheet is for safety sheet infractions and warnings only. A team may have a deduction due to an NFHS or GHSA safety infraction. Do not write personal comments on the Competitive Cheerleading Safety Infraction Sheet.

Two (2) points per each individual violation will be incurred and may be called by any official on the panel.

2 Point Safety Violations
When beginning with a stunt or pyramid, the team may set and prepare to build prior to beginning the routine. Only at the beginning of the routine, a flyer must have one foot on the floor ready to begin the stunt and in preparation of the signal to begin. Routines cannot begin in a stunt per GHSA rules. <ul style="list-style-type: none"> It is a 2-point deduction per top person who does not have one foot on the floor.
Tumbling outside of a routine is illegal and will result in a violation as well as a penalty. If the team member tumbles while coming on the floor, time will begin when the team member tumbles. A team member cannot tumble on or off the mat. It will be a GHSA violation. <ul style="list-style-type: none"> It is a 2-point deduction per team member who tumbles outside of the routine.
Loss of hair devices, loss of hair pieces, or inappropriate hair pieces, inappropriate fingernails, untied shoestrings, jewelry, glitter, etc.
Items from the above list that interfere with the execution of a skill.
Inappropriate uniform. Failure to follow GHSA and NFHS rules.
Beginning the routine off the mat.
Boundary violations – stepping out-of-bounds.
Falls to the floor.
Unsafe performing surface – Loss of shoe or loss of hair device: <ul style="list-style-type: none"> Should a performer step on the bow or walk over a bow or other item it is not a violation. However, if the performer executes a skill(s); such as tumbles, jumps or stunts/builds pyramid; onto the bow, hair device, shoe, pom etc., it is a violation. The loss of a shoe or another part of the uniform would be considered a violation of NFHS Rule 3-1-2. Shoes must remain tied and, on the foot, to be considered safe and an appropriate uniform. An official may call an untied shoelace as a violation of this rule. Untied shoes laces or loss of shoe will result in an unsafe uniform violation.
Inattentive spotter. Only <u>one</u> official is needed to call this violation.
Only call shoes that are inappropriate for cheer. Cheerleaders may have on various types of shoes. For example, it is okay if some of the squad chooses to wear high top cheer shoes and the other part of the team wears regular cheer shoes.

Boundary Violations

The entire mat is considered the performing surface/competition floor. A white or blue line of tape may be placed around the outside of the entire mat to indicate the edge of the mat.

- If mats are of unequal length the entire mat is still the performing surface and the boundary tap around the outside of the mat does not define the performing surface.
- Any body part, including the entire shoe which steps off the mat will be considered out-of-bounds.

GHSA Competition Cheerleading Guide

The key to calling any hair violations is that the hair must interfere with the execution of the skill or cause an issue on the performing surface (*NFHS 2-1-7*). Stunt can refer to stunting, pyramids, and tumbling.

- The officials will make the final determination in how to score the issues created by hair.
- A ponytail touching the back of the neck and back, including the shoulders would not be a violation unless it interfered with the execution of the skill.
- If a team member runs into another team member while tumbling and it is felt the hair caused the issue, then a violation may be called.
- If a flyer steps on a base's hair or a base, tangles her hand in the hair while stunting, then a violation may be called.
- Any judge may call a violation if a team member, tumbles, jumps, or builds a stunt on the hair device or piece. It is unsafe performing surface. Stunts would include all members of a stunt group including the spotter.
- If a member drops a hair bow or hair piece and it falls on the floor for safety reasons a team member may pick it up and throw it off the floor or away from the performance area.
- This would not be a violation for floor safety. However, it is a two-point deduction for an unsafe uniform.
- If the team member steps onto the bow but is not executing a skill it would not be a violation.

Hair Device Violations

Hair devices are considered unsafe when they come off, untied, or fall on the floor. Several rules may be involved when a hair device is considered unsafe. This is a one-time call no matter which rule the judge selects to call.

NFHS Rule	Violation	Deduction Amount
2-1-5	A hair bow or hair piece comes out and falls to the floor. For safety reasons, the team member may reach down and pick up the bow. The bow may be tossed from the competition area. Loss of hair device	2 points
2-1-7a	A team member drops a hair bow or hair piece and the team then stunts on, dances on, jumps on, etc. the bow then the performing surface will be considered unsafe.	2 points

Fingernail Clarifications

When does the length of the nail constitute an inappropriate nail?

- The color of the nails is a coaching decision. Colors can become distracting and so motions, violations, etc. are much easier to see from an official's perspective.
- The nails need to be safe. If you can see the nail over the tip of the finger, then it becomes a safety issue.

Falls

A stunt group is dependent on one another to perform or execute the element/skill and must work as a team, it will be considered one fall whether one member of the stunt group or more falls. The same would be true of a stunt group in a pyramid.

Partner Stunt/Toss

- Because each of the members of the stunt group are interdependent, if the group has a fall it will be considered **one** fall.
- If all three or four team members of the stunt group fall to the floor it is still would be one fall.

Pyramid

When determining the number of falls in a pyramid, consider the number of possible stunt groups that may fall. Here are a couple of examples.

- If one side of a pyramid falls, it is one fall.
- If two sides fall or a center and the side, it is two falls.

Section 5

Officials' Scoring Instructions & Rubrics

Cheer Introduction

The key to this rubric and scoring system is to perform within the means of the squad's skill level, execute all skills soundly, and score high in the execution categories.

Term	Description
Majority	51% or more of the team members execute a required skill. Half of the team plus one. <ul style="list-style-type: none"> 15 members would need 8 members completing the skill to fall in the majority range.
Less than majority	50% or fewer of the team members execute a required skill. Half the team or less. <ul style="list-style-type: none"> A team of 15 members have 7 members complete a skill, then they would fall in the less than majority range.

The Total Team members performing the skill is used to determine the DOD in jumps, standing and running tumbling.

The following table identifies the number of team members who are not required to perform the skill.

If the rubric reads...	Then...
Total Team# - 0	All team members must perform the skill.
Total Team# - 2	1 and/or 2 team members are not required to perform the skill.
Total Team# - 4	3 and/or 4 team members are not required to perform the skill.
Total Team# - 6	5 and/or 6 team members are not required to perform the skill.
Total Team# - 8	7 and/or 8 team members are not required to perform the skill.

Check boxes on the score sheet defines the areas for improvement for a team's execution scores. This provides coaches with information to assist them on working to improve their execution scores week-to-week.

- Make sure that the boxes you check match your score.

Panel A - Jumps/Cheer/Dance/ORC

Jumps should be performed as a team.

- Squads may complete jumps connected to tumbling. However, the jumps will be scored in jumps and the tumbling portion will be scored in standing tumbling.

tumbling portion will be scored in standing tumbling.		
Term	Description	
Combo	Connected jumps without a pause in between. All approaches within the jumps must use a whip approach to be connected. <ul style="list-style-type: none">A double toe touch.A toe touch, pike, hurdler that are all connected.	
Variety	Involves different jumps <ul style="list-style-type: none">A right herkie, toe touch, left herkie all connected would complete the 3-jump triple combo requirement.	
Jump Level	Description	DOD
Basic	tuck jumps, spread eagles, banana jumps	1-2
Advanced	herkie, hurdler, pike, double nine, toe touch	2-6

Cheer Requirements

- A minimum of **3** eight counts of cheer with an incorporation(s).
- The entire team must participate in cheer to be eligible to receive **maximum** points.
- Athletes must say the words in the cheer.
- Cheer words should be distinct and have a high volume.

Cheer Incorporations

One of the following must be incorporated into the cheer to be eligible to receive **maximum** points.

- Jumps, tumbling, stunts, tosses, pyramids, or any combination
- To be eligible to receive the **maximum** points, **all** must dance the entire **four (4) eight** counts.
- Dance should have level changes, transitions, footwork, and floor choreography to max out.
- Lifts and rolls are permitted as part of the choreography.

Overall routine will be evaluated on the following criteria:

- Showmanship, energy level, excitement, crowd appeal, uniformity, genuine enthusiasm, and the athletic sportsmanship.
- A team's ability to demonstrate precise spacing and seamless patterns of movement performed throughout the routine. This includes innovative, visual, and intricate ideas; as well as any additional skills performed to enhance the overall appeal. (*Source: Varsity All Star Scoring guide*)

Panel B - Tumbling

The officials need to see what the Squad can do as a team.

- Teams should tumble in sections of the routine as a squad and not randomly throughout the routine.
- If squads reuse/repeat the same tumbler, officials will not be able to distinguish what the squad can do as a group.
- An official will assume that if an athlete performs a higher-level skill, then that athlete can also perform the lower level skill and give credit for that skill.
- Split the floor with your partner and use the floor safety to verify your numbers.

Examples

- If an athlete performs a round off back handspring full, then an official must assume that the athlete can also perform a round off back handspring tuck or layout.
- If an athlete performs a standing tuck, an official must assume that the athlete can also perform a standing back handspring.

Term	Description
Standing Tumbling	A tumbling skill (series of skills) performed from a standing position without any previous forward momentum. Any number of steps backward prior to execution of tumbling skill(s) is defined as standing tumbling. (Source: <i>usasf.net</i>)
Running Tumbling	Tumbling that is performed with a running start and/or involves a step or a hurdle (etc.) used to gain momentum as an entry to another skill. Any type of forward momentum/movement prior to execution of the tumbling skill(s) is defined as running tumbling. (Source: <i>usasf.net</i>)
Entry	Officials will watch the entry into the skill. <ul style="list-style-type: none"> • Cartwheel: Defined as standing tumbling because that is what initiates the skill. • Round-off: Defined as running tumbling because of the momentum it generates. • A step hurdle into a cartwheel will be judged as running.
Full through to Full	A team member performing a full through to full tumbling pass will count as 2 fulls. <ul style="list-style-type: none"> • Two (2) will be the maximum credit given per athlete.
Specialty Pass	Running tumbling across the mat that contains skills from the following during the pass. <ol style="list-style-type: none"> 1. Contains possibly: back handspring, step outs, whips, Arabians, front walk-over/handspring, aerial, or punch front 2. Ends: A tuck or higher.

When a team member executes a back-handspring with the hands touching the floor the judge cannot assume that the team member intended to execute a tuck. Placing one's hands on the floor during the execution of a tuck is not a fall to the floor. It is an execution error. Based on how the skill is executed, it may be scored as a back-handspring. When tumbling, a fall is considered a fall to the floor when the tumbler lands on their legs, knees, back, head, rear, elbows, and so on, that was not considered a part of the original landing.

Scoring will lack accuracy if elements are scattered out in several segments of the routine. These examples apply to both running and standing tumbling. The tumbling DOD for a routine is not cumulative

Team	Example	The officials give credit for...
A	A team executes 3 standing fulls on the 2nd eight count of the routine, then during the 10th eight count into the routine the team executes 15 standing tucks and 1 standing full.	3 standing fulls, not 4, plus 15 standing tucks.
B	A team executes 2 standing fulls on the 3rd eight count of the routine. Later in the routine, the team executes 1 standing full and 15 standing tucks.	2 standing fulls, not 3, plus 15 standing tucks.
C	A team executes one standing full in the first eight count of the routine. 15 eight counts later, the team executes 3 back handsprings-to-fulls and 12 standing tucks.	3 back handsprings-to-fulls, plus 12 standing tucks. Not 4 fulls.
D	A team executes 2 running fulls-through-to-fulls (total of 4 fulls) in the 2nd eight count of the routine. 12 eight counts later, the team executes 2 round-off handspring fulls and 14 round-off handspring layouts.	4 full plus 14 layouts.
E	A team executes 1 round-off full in the 1st eight count of the routine. 7 eight counts later, the team executes 3 round-off fulls and 13 round-off tucks.	3 fulls plus 13 round-off tucks.

PANEL B – STANDING/RUNNING TUMBLING

[illegible]

Panel C – Partner Stunt/Pyramids

The officials need to see what the squad can do as a team. If squads re-use/repeat stunts elsewhere in the routine, officials will not be able to distinguish what the squad can do as a group. Therefore, it is imperative that teams' stunt in sections of the routine as a squad and not randomly throughout the routine.

Term	Description
Fall	A body part, other than the sole of the shoe, coming into contact with the performance surface during the execution of a stunt/skill. Falling to the floor with a body part landing on the floor such as hands, knees, legs, back, head, rear, elbow, and so on. <ul style="list-style-type: none"> A stunt group falling to the floor will count as 1 fall.
Drop	A stunt/skill being attempted that comes down early. It may then be put up again; however, it is clear to the officials that the stunt was not executed as intended.
Missed Stunt	A skill is attempted but does not hit the appropriate position or height as the other stunts. <ul style="list-style-type: none"> Failure to hit a heel stretch and instead remaining in a platform or liberty.
Bobble	When a flyer hits a stunt/skill and wobbles, shakes, swings their arms; but the stunt remains in the air.
True Full up	Bases remain stationery and flyer rotates 360°.
Entry	The beginning or mounting phase of a stunt, where one foot/hand(s) starts on the performing surface or in a loading position.
Structure	A place in a pyramid when flyers connect (hand-hand or hand-foot) and pause to show a defined position. This is also known as a picture.
Extended Stunt/Position	The supporting hand(s) of the base(s) is/are above the head. (<i>Source: NFHS</i>)

A judge will give credit for those stunts that go to the intended height of the stunts. Stunts that do not go to the intended height will not be factored into the scoring of the Degree of Difficulty. This is in Primary and Secondary Stunts as well as Pyramids.

- A team attempts to execute four liberty heel stretches. One does not make it up and the second one dismounts to the floor prior to hitting the highest point. Hence, two of the four of the stunts did not make it to the intended height. Thus, the team is only given credit for the two stunts that reach the intended height/hit.

One point for front spots in stunts and tosses will no longer be deducted.

All groups must **demonstrate stability** at the extended point of the executed stunt. This **cannot** be a show & go style execution. All stunts must have the required spotters and bases.

Routines cannot begin in a stunt per GHSA rules.																					

If a squad performs the **same** skill multiple times it will still only count as one skill.

- A full up from load and a full up from straddle position will count as **one** advanced skill. The full up is the repeated skill.
- Coed entries: Walk-ins, Tosses, Cannonballs, J-ups, etc.
- All groups must perform the same skill(s) to receive credit.

The table below represents a **limited list** of stunt skills a squad may perform. The officials are responsible for determining the level of difficulty for any stunt skills not listed.

- A team with 16 members will be expected to stunt 4 primary stunts executing the max DOD requirements to receive an 8.
- A team of 16 members stunt 3 primary stunt groups, if the squad maxes DOD requirement, the highest DOD the squad will receive is a 7. The groups must complete all the skills outlined in the rubric to receive the highest score in DOD.
- If a team has a total of 15 members, they are expected to stunt 3 primary stunt groups. 3 stunt groups executing the max DOD requirement would receive a 7. However, if a team has a total of 15 members and stunt 4 main groups with the required skills, they can receive a maximum of 8 for DOD points.
- To max out DOD in secondary stunt/tosses, a team of 16 will be expected to do 5 secondary extended single leg stunts or throw 4 advanced tosses to receive a 4.
- If a team has a total of 15 members, they are expected to stunt 4 secondary extended single leg stunts or throw 3 advanced tosses to receive a maximum score of 3 for DOD.
- A team of 15 could max out DOD of 4 if they perform 5 single leg extended stunts. However, a team of 15 members would be unable to legally complete 4 tosses.

Coed teams will be required to demonstrate single based coed stunts during the **Secondary Stunt** sequence to receive credit in the Secondary Stunt category.

Unassisted/Assisted

For the Coed Secondary Stunts, Unassisted and Assisted will be defined as the following:

Level	Description
Assisted	Any contact made to the stunt by any other member of the team. If another member touches the stunt prior to clearly hitting the intended position, then it is assisted.
Unassisted	Stunt completed by only one person and without the help of any other team member. A stunt must hit at the intended position without any assistance or contact to receive full credit.

Use these steps when judging Coed.

Step	Action
1	Determine the number of males on the team. <ul style="list-style-type: none"> Reference <i>Coed Stunt Groups</i> chart to determine how many males must stunt.
2	Identify the skills performed by the required males on the team – primarily the skill of the weakest boy.
3	Locate the lowest level skill performed by the males on the squad on the rubric, this identifies the highest possible Secondary DOD.
4	Identify the total number of stunt groups the entire squad performed.
5	Did the squad perform the required number of stunt groups for the highest possible DOD? <ul style="list-style-type: none"> The highest-level DOD is always based on the Coed stunt, not the all-girl stunt.

The chart identifies the required number of coed stunts to execute during the **Secondary Stunt** sequence to receive credit in the Secondary Stunt category. The team is required to put up the same number of Secondary Stunts to score within a specific DOD category; however, each male will complete the coed requirement based on the chart below.

- Total Groups for Coed secondary stunts do **not** refer to the number of male athletes to be used. This refers to the number of stunt groups.

Number of Males on a Team	Number of Coed Stunts to Execute
1-2	1
3-4	2
5-6	3
7-8	4
9-10	5

For a coed team to receive 2 pts, 3 pts, or 4 pts, they must show their coed stunt unassisted at some point. Squads can choreograph the stunt exactly the way it is listed or if they have skilled male athletes, they can choose to skip the prep portion if they show the harder skill, **fully unassisted**.

DOD Examples

All examples are assuming the other required criteria is met with the number of stunt groups and number of required males completing the stunt.

DOD	Description
4	<ul style="list-style-type: none"> A coed team performs a walk in or toss to a single leg extended stunt with no assistance or performs it exactly the way it is stated in the rubric.
2	<ul style="list-style-type: none"> A coed team performs unassisted extensions to the top, not stopping at prep first. A coed team performs unassisted to hands/prep <u>then</u> assisted/unassisted to an extension.
1	<ul style="list-style-type: none"> A coed team performs a stunt assisted at prep level or assisted straight to the extended level, i.e. – fully assisted extension to the top, or a fully assisted single leg stunt to the top with never showing anything unassisted. Under the 1 category, everything can be assisted. To receive higher than a 1 they must do some part of the skill unassisted.

Group Examples

Total Groups	Description
5 Total Groups	<ul style="list-style-type: none"> A team of 16 with 1 male athlete – to max out at DOD 4, they must put up a total of 5 secondary stunt groups and the 1 male athlete must complete the coed requirement. The other 4 groups can be all-girl. A team of 16 with 10 male athletes - to max out requires 5 secondary stunts with 5 of those groups main based by 5 of the 10 male athletes.
4 Total Groups	<ul style="list-style-type: none"> A team of 15 with 4 male athletes – to score a DOD of 3, they must put up a total of 4 secondary stunt groups and 2 of the 4 male athletes must complete the coed requirement.
3 Total Groups	<ul style="list-style-type: none"> A team of 12 with 2 male athletes – to score a DOD of 2, they must put up a total of 3 secondary stunt groups and 1 of the 2 male athletes must complete the coed requirement. The other 2 stunt groups can be all-girl.

A squad could score a zero in the following scenarios.

- A team does not execute the number of required male stunts.
 - The number of required stunts from male athletes on a team do not fulfill the requirements of the rubric of assisted to hands/prep level, then assisted or unassisted extension.
- A team with 1 male athlete is unable to perform the day of competition, his stunt group does not fulfill the requirement of the rubric, or the stunt does not hit.
- The male athletes drop all required stunts that day.

When stunting, a fall is considered to the floor by a stunt team member, including bases, flyers, and spotters. When a flyer or stunt group falls, a team member must fall to the floor landing on a part of the body such as the hands, legs, knees, back, head, rear, elbow, hand, and so on. *See Fall definition.*

If a person lands on their feet, it is not considered a fall. It would be considered an early dismount and/or an execution error. This should be factored into the execution score.

The secondary stunt must show stability at the top before coming down, not show-and-go style. The stunt cannot just pass thru the top.

Will be scored in the Secondary Stunt skill area on the scoresheet. They are not required. A basket toss can be considered a high-level stunt when it is executed appropriately and safely. A team may score the top score for DOD or EXE without the execution of any basket tosses.

Two or more connected stunt groups built no more than two body lengths high. A squad of 16 will likely have a more intricate pyramid than a squad of 12.

Skills

If a squad performs the same skill multiple times it will still only count as one skill.

- A full up from load and a full up from straddle position will count as **one** advanced skill. The full up is the repeated skill.

Pyramid Skills		
Basic	Intermediate	Advanced
Straight-up stunt to prep level or extension	Faux full-up to extended position	True full-up to extended position
Prep level stunts	True full-up to prep level	Ball-up to extended position
Half-up to prep	Half-up to extended position	Switch-up to extended position
	Switch-up to prep level	Inversion to extended position
	Inversion from below prep level to prep level	Quick toss to the extended position
	Quick toss to prep level	
	Invert from prep level to prep level	
	Ball-up to prep level	

Transitions

Transitions		
Basic	Intermediate	Advanced
Show and go	Half around back to squish	1½ around back to squish
Single leg show-and-go	Full around back to squish	Vault
Straddle sit	Flat back into stunt	Release transitions – loss of contact tricks in a pyramid such as a braced <ul style="list-style-type: none"> • High-to-high tick tock • Low-to-high tick tock • Ball up • Toe touch • Full around • Forward flip • Backward flip • And more
Splits	Helicopter	
	Power press and other similarly difficult skills	
	Invert from prep level to prep level or load position	
	Up and over (leapfrog)	

Pyramid Execution

When a pyramid is attempted, and part of the pyramid is executed appropriately, then the team is given credit for any portion of pyramid that hits. Provided the pyramid reached the intended height, a fall in one stunt group of a pyramid would not prevent the team from scoring a Degree of Difficulty (DOD) score. Spacing issues, falls/missed elements on one side, and timing issues would be an example of elements that would be scored in the execution of the pyramid. Either side falling may result in a fall deduction if the fall goes to the floor.
