Post Season Ranking Formula (PSRF)

Public and Non-Public Schools in Classes A DI, 2A and 3A will play in their assigned regions during the regular season, but private member schools will compete in a combined championship bracket of private member schools only. Public schools in Class A DI, 2A and 3A will participate in a separate championship bracket by assigned classification. The following format will be used for playoff seeding sports that the ranking formula is required.

Public & Private School State Playoff Qualification

Seed all of the Region Champions (1-8, or the number of region champs) by the school's post season ranking formula totals and all of the Region Runner-Up's (9-16, or starting at the seed below the lowest region champ) by the school's post season ranking formula totals and then seeding the remaining 3rd & 4th finishing place schools and At Large seeds strictly by the school's post season ranking formula (starting with the seed below the lowest region runner-up).

Example - Public Bracket - 4 public schools win the region and 5 public schools finish as the region runner-up; 15 public schools finish as #3 or #4 in the region; that's a total of 24 schools guaranteed a state playoff seed; the 8 remaining seeds are determined using the PSRF. All 3rd, 4th & At Large state playoff participants will be seeded based on PSRF.

Public Bracket

#1 Seed - Highest PSRF Region Winner	#16 Seed - 4th Place
#2 Seed - Next Highest PSRF Region Winner	#17 Seed - At Large
#3 Seed - Next Highest PSRF Region Winner	#18 Seed - At Large
#4 Seed - Next Highest PSRF Region Winner	#19 Seed - 3rd Place

#7 Seed - Next Highest PSRF Region Runner-Up	#22 Seed - 3rd Place
#8 Seed - Next Highest PSRF Region Runner-Up	#23 Seed - At Large
#9 Seed - Next Highest PSRF Region Runner-Up	#24 Seed - 4th Place
#10 Seed - 3rd Place - Highest PSRF of 3rd, 4th Place & At Large	#25 Seed - At Large
#11 Seed - 3rd Place	#26 Seed - At Large
#12 Seed - At Large	#27 Seed - 3rd Place

The GHSA Office will build a platform in the MIS system that implements the following requirements:

- Every Class A DII-6A school team enters their schedule in the MIS system (Schedule will be locked before 1st game).
 - Each school enters their teams schedule on the MIS platform for all contests; Contests against out of state schools and non GHSA member schools will be calculated using winning percentage only.
 - All postponed contests should be rescheduled.
 - Canceled contests will need approval from the GHSA office to reschedule a replacement opponent.
 - Forfeited contests count in a school’s formula and the appropriate points should be applied (If a school chooses to accept the forfeited contest points, any additional scheduled game played will not be calculated into the school’s formula).
 - However, if a school chooses to not accept the forfeited contest points, the additional “makeup” contest will be calculated into the school’s formula. The school must choose which option to accept before the makeup contest is played.
- All contests against GHSA member schools will be used to calculate the school’s PSRF regardless of classification. Schools will not earn additional points for playing schools in higher classifications.
- All member schools must enter their scores in the MIS system for the schedule entered in the system (scores will be locked after being submitted).

GHSA Post Season Ranking Formula will contain:

- o **Winning Percentage (WP)** is calculated by taking a team's wins divided by the number of contests played.
 - Home win equals 0.9, Away win equals 1.1, neutral site and non GHSA win equals 1.
 - Private Schools will use the same Home, Away, Neutral and non GHSA win equals from above except when playing a private school in a higher classification (inside 1A – 3A), a win equals 1.4. When playing a private school in a lower classification a win equals 0.6.
 - For sanctioned tournaments and play dates, if an opponent plays against the host at the host site, a home win equals 0.9 and an away win equals 1.1. All other contests, not involving the host, would be considered a neutral site and a win equals 1.
 - All Region tournament contests will be considered a neutral site and a win equals 1.
- o **Opponents' Winning Percentage (OWP)** – is calculated by taking the average of the WP's for each of the team's GHSA opponents with the requirement that all contests against the team in question are removed from the equation.
- o **Opponents' Opponents' Winning Percentage (OOWP)** – is calculated by taking the average of each GHSA Opponent's OWP. Note that the team in question is part of the team's OOWP.

- MIS system would calculate the ranking using the evaluation formula for each *Class A DI-3A* team by sport.
- GHSA Post Season Ranking Formula will be published on the GHSA website for public viewing.
- Tiebreakers for equal ranking
 - Head to Head Result
 - GHSA Tiebreaker in ByLaws

GHSA Post Season Ranking Formula: (Public Schools)

$$PSRF = (WP*0.35) + (OWP * 0.35) + (OOWP * 0.30)$$

WP – Winning Percentage

OWP – Opponents' Winning Percentage against GHSA opponents only

OOWP – Opponents' Opponents' Winning Percentage against GHSA opponents only

WP – is calculated by taking a team's wins divided by the number of contests it has played. Home win equals 0.9, Away win equals 1.1, neutral site and non GHSA opponents win is 1.

OWP – is calculated by taking the average of the WP's for each of the team's GHSA opponents with the requirement that all contests against the team in question are removed from the equation.

OOWP – is calculated by taking the average of each GHSA Opponent's OWP. Note that the team in question is part of the team's OOWP.

Team A loses to Team B at home

Team A wins against Team B on the road

Team A loses to Team C on the road

Team A is 1-2

Examples:

Team A loses a home game, wins an away game, and loses an away game.

$$WP = 1.1 \text{ (away win)} / (1.1 \text{ (away game)} + 1.1 \text{ (away game)} + 0.9 \text{ (home game)}) = 0.35483$$

Team A has played Team B twice and Team B WP would be counted twice. Team A has played Team C once and Team C WP would be counted once.

$$OWP = (0/1 + 0/1 + 2/2) / 3 \text{ (number of opponents- Team B, Team B, Team C)} \quad OWP = 0.3333$$

$$OOWP = (\text{Team B's OWP} + \text{Teams B's OWP} + \text{Team C's OWP}) / 3.$$

$$OOWP = (0.000 + 0.000 + 0.500) / 3 = 0.1667$$

$$\text{Team A's PSRF} = (WP * 0.25) + (OWP * 0.50) + (OOWP * 0.25)$$

$$\text{Team A's PSRF} = (0.35483 * 0.35) + (0.33333 * 0.35) + (0.16667 * 0.30) = 0.29086$$

GHSA Evaluation Formula: (Private Schools)

$$PSRF = (WP * 0.35) + (OWP * 0.35) + (OOWP * 0.30)$$

WP – Winning Percentage

OWP – Opponents' Winning Percentage

OOWP – Opponents' Opponents' Winning Percentage

WP – is calculated by taking a team's wins divided by the number of contests played. Home win equals 0.9, Away win equals 1.1, neutral site and non GHSA win is 1, larger classification win is 1.4, and smaller classification win is 0.6.

OWP – is calculated by taking the average of the WP's for each of the team's GHSA opponents with the requirement that all contests against the team in question are removed from the equation.

OOWP – is calculated by taking the average of each GHSA Opponent's OWP. Note that the team in question is part of the team's OOWP.

Team A loses to Team B at home

Team A wins against Team B on the road

Team A loses to Team C on the road

Team A wins against Team D in larger classification

Team A wins against Team E in smaller classification

Team A is 3-2

Examples:

Team A loses a home game, wins an away game, loses an away game, wins against larger classification, and wins against smaller classification.

$$WP = 1.1 \text{ (away win)} + 1.4 \text{ (larger classification win)} + 0.6 \text{ smaller classification win} / (1.1 \text{ (away game)} + 1.1 \text{ (away game)} + 0.9 \text{ (home game)} + 1.4 \text{ (larger classification game)} + 0.6 \text{ (smaller classification game)}) = 0.60784$$

Team A has played Team B twice and Team B's WP would be counted twice. Team A has played Team C once and Team C WP's would be counted once. Team A has played Team D once and Team D WP's would be counted once. Team A has played Team E once and Team E WP's would be counted once.

$$OWP = (0/1 + 0/1 + 2/2 + 1/1 + 0/1) / 5 \text{ (number of opponents- Team B, Team B, Team C)} OWP = 0.4000$$

$$OOWP = (\text{Team B's OWP} + \text{Teams B's OWP} + \text{Team C's OWP}) / 3.$$

$$OOWP = (0.000 + 0.000 + 0.500) / 3 = 0.16667$$

$$\text{Team A's PSRF} = (WP * 0.35) + (OWP * 0.35) + (OOWP * 0.30)$$

$$\text{Team A's PSRF} = (0.60784 * 0.35) + (0.4000 * 0.35) + (0.16667 * 0.25) = 0.40274$$
