

RECLASSIFICATION PROPOSAL

Utilizing past history to improve
the reclassification process

MAJOR ISSUES ADDRESSED

- ▶ 4 Year Reclassification
 - ▶ 2 Year Scheduling Cycle
- ▶ Percentage breakdowns
- ▶ Balancing Classifications
- ▶ Streamline Process

4 YEAR RECLASSIFICATION

Every ~~two~~ **four** years, member schools will be placed in classifications for competition by one of the following procedures:

The four-year reclassification period shall be divided into two contractual periods of two years each.

- (1) A school that experiences more than a 20% increase or decrease in FTE at the end of the second year will be placed in a different classification for the final two years.
- (2) New private schools will be allowed to enter the GHSA at the third year of the reclassification cycle.

PERCENTAGE BREAKDOWNS

Schools will be placed in classifications as follows:

- Largest 10% of schools (according to F.T.E.) – 6A
- Next 15% - 5A
- Next 15% - 4A
- Next 15% - 3A
- Next 15% - 2A
- Remaining 30% - 1A

Balancing Classifications

When the number of schools moving up a classification has been verified, the same number of schools with the smallest enrollment in the affected classification will have seven (7) days to file a request to play down one classification.

- a. A request to move to a lower classification must be submitted over the signatures of the school's administrative authorities (i.e., the Principal and Superintendent).
- b. A school that transfers to a lower classification must remain in the lower classification until schools are next reclassified on a statewide basis.

STREAMLINE PROCESS

Shorten Request Period from 14 to 7 days

Allow Region to vote on Lateral Transfers
