

Relay Configurations

1. The format for this year's competition has been modified from past years. All teams will compete 3 shooters in the first relay. All individuals will compete in the second relay, along with the remaining 2 competitors from each team.
2. Coaches I apologize for this one – those of who have already provided me with your team rosters, thank you. Would you please update them as follows: number each competitor 1-5 in the priority / order in which they would shoot on the firing line, from left to right. 1 being furthest left. Shooters 4 & 5 will compete in the second relay.
3. Hopefully, this will minimize the administrative part of the check which will consist of: name verification, correct spelling, bib printing, filling out the equipment check-in form, followed by equipment and clothing checks. I will need 4 coaches to help with the check-in on Friday and Saturday. This will help Lisa Kelly upload the scoring system in a timely manner.
4. Saturday check-in: there is only one hour allotted for check-in on Saturday. Most teams will have checked-in on Friday.
5. Range Officers / Red Hats: I will need 6 coaches to serve as range officers. I will accept volunteers ahead of time. We cannot hold the competition unless we have sufficient supervision on the firing line.
